

Swiss Tower Mills Minerals AG is an ambitious mining equipment company based in Baden, Switzerland. Our high-tech mills are used for efficient extraction of minerals. STM develops, produces, assembles, commissions and services these specialised mills worldwide.

To strengthen our international team, we are looking for a motivated and dedicated

Junior Electrical Project Engineer m/f (80-100%)

Your responsibilities:

- **Support Electrical and Instrumentation Project Team**
 - Assist in creating and issuing key project documents such as:
 - Electrical block diagrams
 - Process and instrumentation diagrams (P&IDs)
 - Electrical consumer lists
 - Instrumentation diagrams and equipment lists
- **Documentation Standards**
 - Actively contribute to the development and maintenance of STM standard project documentation.
 - Ensure accurate and timely updates to existing documents and create new documentation as required.
- **Process Improvement**
 - Support continuous improvement efforts by enhancing STM processes related to document creation and the usage of software design packages.
- **Cross-functional Collaboration**
 - Work closely with project management, mechanical design, production, procurement, R&D, and service teams to drive the ongoing improvement of STM processes and standards.
- **Occasional Travel**
 - Visit project sites and vendors when required to support project delivery and vendor coordination.

What we are looking for:

Minimum Requirements:

- Completed studies or technician training in the field of electrical, automation or process engineering
- Structured, independent and entrepreneurial way of working
- Practised in the use of common information technology, programming skills
- Good written and spoken German and English, other languages are an advantage
- Team-orientated, motivated and communicative personality
- Willingness to travel

Bonus if you have the following:

- Previous experience in an engineering design, manufacturing or engineering consulting environment
- Experience with technical drawing software packages such as AutoCAD

We offer:

- Centrally located, just 3 minutes' walk from Baden railway station
- 2 days home office per week
- Small, agile company with flat hierarchies and short decision-making processes

Do you feel that this description fits you? Then we would be happy to receive your application via email ray.regine@stmminerals.com
